INTERNSHIP EXPERIENCE

Software Engineering Intern — Hindustan Aeronautics Limited (HAL), MCSRDC Aug – Sep 2023

Bengaluru, India

- Worked on navigation-systems software with senior engineers in a mission-critical, review-gated environment.
- Performed functional testing and validation of software modules, and documented the results.
- Wrote shell scripts to automate routine build and data-handling tasks.

PROJECTS

School Management Portal — React.js · Node.js · Express · MySQL

- Multi-role application for admin, teacher, student and parent covering admissions, fees, marks, timetable, homework and notices.
- Session-based login with role-based permissions, server-side validation on every form, and PDF report-card export.
- SQL reporting for toppers, class performance and pending fee dues, with a simple offline page cache.

Portfolio & Resume Platform — React · TypeScript · Node.js

- React and TypeScript front end over an Express REST API, with a private dashboard for editing all site content.
- Resume served as a web page and as a generated PDF download; deployed and running.
